*County Executive*

Robin Riley  
*Director*

April 1, 2019

To Our Valued Passholders of Martin Luther King, Jr. Indoor Swim Center:

Montgomery County Recreation will be undergoing critical mechanical upgrades in the pump rooms at the Martin Luther King, Jr. (MLK) Indoor Swim Center. The work has been scheduled to take place during the summer of 2019 and should be completed by early-September.

During construction, the building will be closed to the public beginning May 20, 2019.

It is unfortunate that we must interrupt service to our customers. Fortunately, the summer months provide our customers with other swim and recreation alternatives, recognizing they will probably be somewhat less convenient. We value our regular customers and hope you continue to swim with us through the summer.

All MCR annual passholders may use any MCR Aquatic Facility (indoor or outdoor). In an attempt to accommodate the patrons at MLK Indoor, MLK Outdoor will be offering early bird lap swimming, deep water running, water fitness and lessons throughout the summer.

However, some patrons may not wish to use another facility. All passes purchased prior to May 1, 2019 will be given the option to suspend and then extend their passes for the closed months. All requests will be processed at the MCR Administrative Offices. Forms are available at the facility and [www.mocorec.com](http://www.mocorec.com). Requests for suspension must be received no later than June 1, 2019.

Pass suspension and extension guidelines are as follow:

- If your pass expires after September 2, it may be suspended from May 20 – September 2 and the expiration date will be extended three months from original end date.
- If your pass expires between May 20 – September 2 it may be suspended for time remaining on the pass and extended for the same amount of time.

We thank you for your understanding and cooperation. If you have any questions regarding the closure, feel free to contact the main office at 240-777-6860.

Sincerely,

Melanie Sasse  
Aquatics Program Manager
